PROFESSIONAL SUMMARY

Computer Science student and U.S. Navy veteran with hands-on experience supporting networked systems, secure communications, printer/MFD environments, system administration, and technical troubleshooting. Experienced in configuring Fiery network settings and secure device features in government environments. Targeting software engineering, field engineering, IT, and defense technology roles.

EDUCATION

San Diego State University | Bachelor of Science in Computer Science Expected 2027
Grossmont-Cuyamaca College | Associate of Science in Computer Science | GPA: 3.5 June 2025
Grossmont-Cuyamaca College | Associate of Science in Science and Mathematics | GPA: 3.5

CERTIFICATIONS

SOC Analyst – ThinkCloudly Aug 2026
Certification of Achievement IGETC CSU Transfer Aug 2025
Honorable Discharge Sep 2023
Certified Security Reaction Force Team Member Advanced, U.S. Navy May 2019
Certified Navy Security Force Sentry, U.S. Navy May 2019

TECHNICAL SKILLS

Programming & Technical: Java, C++, Networking, System Administration, Encryption, Cybersecurity, Cloud Computing, Debugging, Troubleshooting
Print / Network Systems: Fiery network settings, networked printers/MFDs, scan-to-email, cloud connectivity, user authentication, hardware/software diagnostics
Domain Knowledge: Information Systems, Machine Learning, Data Science

EXPERIENCE

Field Service Technician | Strike Group LLC | San Diego, CA January 2024 - Present
• Diagnose and resolve hardware, software, connectivity, and configuration failures across 75+ networked printers and multifunction devices supporting government clients.
• Configure Fiery network settings and printer connectivity, along with secure features including scan-to-email, and user authentication.
• Apply cybersecurity best practices during device configuration, software updates, access control, and troubleshooting to support secure data handling and system availability.

Operations Specialist | United States Navy | San Diego, CA October 2020 - September 2023
• Operated SPY radar and surveillance systems to track 50+ air and surface contacts in real time, supporting navigation, threat detection, and situational awareness.
• Produced and relayed encrypted mission data across multiple warfare centers, supporting command-level decision-making in mission-critical environments.
• Trained 10+ junior watch standers in radar operations, data-entry systems, reporting procedures, and communication circuits.

Hazmat Technician | United States Navy | San Diego, CA September 2018 - October 2020
• Managed hazardous material inventory and maintained compliance with federal labeling, storage, and disposal requirements.
• Performed mechanical, electrical, and electronic preventive and corrective maintenance to sustain equipment reliability.

Airline Customer Service Agent | Swissport | Chicago, IL March 2014 – September 2018
• Supported 250-320+ travelers per shift by issuing documentation, validating security requirements, and resolving travel issues.
• Trained new staff on policies, system navigation, and customer service standards.
